

OBJECTIVE

Associate Software Engineer with 2.6 years of experience proficient in Java, Spring Boot, Spring MVC, JPA, Microservices, HTML, Thymeleaf, Postman, Swagger, RESTful Api, Kafka, MySQL, Redis, GitHub, AWS (EC2, RDS, Redshift), Jenkins, Docker, CI/CD. Proficient in communication, I excel both as a collaborative team member and as a self-directed contributor. My commitment is to continually improve my skills and achieve greater heights in this field.

TECHNICAL SKILLS

Programming Language	:	Java
Framework	:	Spring Boot, Spring MVC, JPA, Microservices
API's	:	Postman , Swagger , Restful Api, Kafka
Database	:	MySQL, Redis
Cloud Technologies (AWS)	:	EC2, Aws RDS, Aws Redshift, Jenkins, Docker,DockerHub , ECR, CI/CD Pipeline
Web Technologies	:	HTML , Thymeleaf, CSS, JavaScript
Tools and IDE	:	Eclipse , Git, GitHub JIRA
Project Management	:	SDLC, Agile Project Management
Collaboration Tools	:	Slack , Microsoft Teams, Zoom

PROFESSIONAL EXPERIENCE

1. Charter Global Technologies Pvt Ltd (Associate Software Engineer)

03rd Jan, 2022 - Present

I'm working on the ALL-CONNECT Project, an American-based Project

My roles and Responsibility on project

1. Rapid Application Development Using Frameworks (Spring Boot, JPA, Microservices).
2. Legacy Applications Upgradation, Enhancement & Performance Tuning.
3. Creating Standalone Microservice and continuously provide support.
4. Creating RestApi and adding swagger to test API with User-Experience.

Tools / Software used : Eclipse IDE , Postman API, MySQL Workbench, JIRA

2. Sysnet Global Technologies Pvt Ltd (Server Engineer Trainee)

21st Jun, 2021 - 23rd Dec, 2021

My roles and Responsibility

1. Indicating service or incident issues.
2. To address these alerts, we troubleshoot the servers remotely using ILO-IP and generate action plans. Additionally, we offer services such as firmware upgrades and new server installations.

PROJECT

1. Spring Boot Application with CRUDify

Key Skills : Java , Spring Boot, JPA ,HTML , Thymeleaf, Postman API , Restful Api, MySQL , Git , Github, Aws RDS ,
Aws Redshift , Ec2 , Jenkins, Docker, DockerHub ,ECR, CI / CD Pipeline.

I developed a Spring Boot application capable of performing operations such as inserting, updating, deleting, and displaying data, utilizing AWS RDS, AWS Redshift, or MySQL databases.

I deployed the Spring Boot application on EC2 and set up a CI/CD pipeline using Jenkins, Docker, DockerHub, and ECR.

ACADEMIC EDUCATION

Bachelor in Computer Engineering <i>University of Mumbai</i>	2017 - 2022
Diploma in Computer Technology <i>Maharashtra State Board of Technical Education</i>	2014 - 2017
HSC(12th) <i>Maharashtra State Board</i>	2012 - 2014
SSC(10th) <i>Maharashtra State Board</i>	2011 - 2012

ACHIEVEMENT

I achieved the top position in the computer department during my Diploma studies.

CERTIFICATION

- PHP & MySQL Certification Course
- RPA Developer Foundation

PERSONAL DETAILS

Gender	:	Male	Data of Birth	:	15 th Nov, 1996
Marital Status	:	Unmarried	Nationality	:	Indian
Language Known	:	Hindi, English, Marathi			
Address	:	Kamla Raman Nagar Baiganwadi Govandi Near Old Bus Depot Fish market Opp Plot No :33, Maharashtra, Mumbai 400043			

DECLARATION

I hereby declare that the information given above is true to the best of my knowledge.
